Methodology:

Match Texas public high school graduates from a specific fiscal year (school year) to students enrolled in Texas public and independent (private) higher education during the fall semester immediately following the school year of their high school graduation. Summarize the graduates by county, independent school district and high school by the higher education institution where they enrolled. High schools with 25 or fewer graduates are excluded from this report.

Data Elements:

High School Graduates Enrolled in Higher Education.

- Texas public high school graduates. (Source: TEA PEIMS high school graduates).
- Students registered for one or more Coordinating Board approved courses for resident credit as of the official census date each semester. The official census data is the 12th class day for fall and spring semesters and the fourth class day for each of the summer terms. (Source: THECB CBM001 Student Report).

School Year. The reporting period consisting of the fall, spring, and summer semesters that begins generally in September and runs through the following August. Fall 2001, spring 2002 and summer 2002 comprise school year 2001-2002, also referred to as school year 2002.
