

TEMPLE COLLEGE

ADOBE ILLUSTRATOR

ARTC 1093

This sophisticated graphics software helps you create logos, advertisements and other illustrations with ease. You'll learn to use Adobe Illustrator CS3 by drawing and manipulating simple shapes to create logos. You'll also combine text and graphics to create ads. The target audience for this one day hands-on class includes: designers, publishers, pre-press professionals, marketing communications professionals, or people switching to a design job or taking on design responsibilities requiring use of Illustrator.
