

Rotation Summary Form

Student Name: _____ Location: _____
Date: _____ Start Time: _____ End Time: _____ Total Hours: _____
Date Submitted: _____ Received By: _____ Date Returned: _____ Date Resubmitted: _____

Learning Objectives

Purpose

The purpose of this rotation is to give students an opportunity to gain experience with the assessment and management of patients in the out-of-hospital setting. They are also to gain experience with the EMS system and its role in the health care system. During this semester, students should focus on 'running' the patient interaction and directing the patient care aspects of the call.

Third semester Field Internship rotations will be spent on a mobile intensive care unit with an assigned preceptor. These rotations will begin the process of taking the student from functioning as an observer, to serving as a member of the EMS team, to performing as team leader and directing the crew in its response to a variety of calls. The student will continue the Field Internship during the fourth semester with the same preceptor.

Objectives (These experiences must be completed)

At a minimum, students in the paramedic third semester clinical will be expected to accomplish the following objectives during each field rotation:

- 1) Evaluate equipment readiness (unit 'check-out').
- 2) Participation in all station daily duties.
- 3) Complete documentation on all patient contacts to include a SOAP style report.

When the opportunity arises, the student in paramedic third semester field internship is expected to focus on the following:

- 1) Integration as a team member with the crew
- 2) Performing appropriate patient assessments.
- 3) Developing a differential diagnosis.
- 4) Developing and implementing a treatment plan.
- 5) Initiation of IV access and blood draws.
- 6) Acquisition and interpretation of ECG rhythm strips.
- 7) Acquisition and interpretation of 12 Lead ECGS or 'multi-lead' ECG.
- 8) Administration of medications.
- 9) Initiation of appropriate advanced airway management procedures.

Competency Checks

During this course, the student will begin completing field competency checks in the following skills:
IV Therapy, IV Drug Administration, Radio Reporting, Documentation, ECG Monitoring Lead, 12-Lead ECG

Patient Contacts

During third and fourth semester clinical rotations, the student must document contact with the following types of patients.

Chest pain 10; Non-traumatic AMS/neuro deficit 5; Vehicular Trauma 6; Acute Abdomen 2; Cardiac Arrest 1; Hypoglycemia 1; Hyperglycemia 1; Adult breathing difficulty 8; Pediatric breathing difficulty 4; Non-vehicular trauma 6; Vaginal delivery 1; Toxicologic/Poisoning 4; Behavioral 2
Newborns 3; Infants (0 to 1 years) 3; Toddlers (1 to 3 years) 3; Preschoolers (4 to 5 years) 3; School age (6 to 12 years) 3; Adolescents (13 to 17 years) 3; Adults (18 to 60 years) 10; Older adults (> 60 years) 8

During third semester field internship, students must complete a minimum of 3 ALS ambulance runs.

PRECEPTOR'S EVALUATION OF STUDENT			
AFFECTIVE OBJECTIVES			
Does the student display the following personal behaviors required of an entry-level paramedic?			
INTEGRITY: Consistent honesty; being able to be trusted with the property of others; being able to be trusted with confidential information; complete and accurate documentation of patient care and learning activities	YES	NO	NBE
EMPATHY: Compassion for others; responding appropriately to patient and family member emotions; demonstrating respect for others; demonstrating a calm, compassionate, helpful demeanor; being supportive and reassuring	YES	NO	NBE
SELF-MOTIVATION: Taking initiative to complete assignments or to improve; taking on or following through on tasks without constant supervision; showing enthusiasm; constantly striving for excellence; accepting feedback positively; taking advantage of learning opportunities	YES	NO	NBE
APPEARANCE/PERSONAL HYGIENE: Complying with clinical dress code; practicing good personal hygiene and grooming	YES	NO	NBE
SELF-CONFIDENCE: Demonstrating ability to trust personal judgment; demonstrating awareness of strengths and limitations; exercising good judgment	YES	NO	NBE
COMMUNICATIONS: Speaking clearly; writing clearly; listening actively; adjusting communications strategies to various situations	YES	NO	NBE
TIME MANAGEMENT: Being consistently punctual; Completing work on time	YES	NO	NBE
TEAMWORK AND DIPLOMACY: Placing team success above self; not undermining team; helping, supporting other team members; showing respect; remaining flexible and open to change; communicating with others to resolve problems	YES	NO	NBE
RESPECT: Being polite to others; not using derogatory or demeaning terms; behaving in a manner that brings credit to the profession	YES	NO	NBE
PATIENT ADVOCACY: Not allowing personal bias to interfere with care; placing patient need above self interest; protecting and respecting patient confidentiality and dignity	YES	NO	NBE
CAREFUL SERVICE DELIVERY: Developing and maintaining mastery of knowledge and skills; demonstrating safe, careful, complete attention to duties; following orders and instructions	YES	NO	NBE
PRECEPTOR COMMENTS (All "NOs" require comment including suggestions for improvement)			
STUDENT COMMENTS (All "NOs" require comment including student's planned actions for improvement)			

NBE = No basis for evaluation

PRECEPTOR'S EVALUATION OF STUDENT

COGNITIVE AND PSYCHOMOTOR OBJECTIVES

Does the student display the following knowledge and skills required of an entry-level paramedic?

OCCUPATIONAL HEALTH AND SAFETY: Displaying safety consciousness with patients, self, other personnel, equipment; compliance with infection control principles, including appropriate use of standard precautions and aseptic technique; using proper body mechanics when handling patients and equipment; demonstrating understanding of psychological hazards of emergency/critical care environments and of techniques for stress reduction and management	YES	NO	NBE
VASCULAR ACCESS: Ability to safely and effectively access the venous circulation of patients from all age groups.	YES	NO	NBE
MEDICATION ADMINISTRATION: Ability to safely and effectively give medications by the intravenous push, intravenous continuous infusion, intramuscular, subcutaneous, and nebulized routes.	YES	NO	NBE
BAG VALVE MASK VENTILATION: Safely and effectively ventilating unintubated patients from all age groups	YES	NO	NBE
ENDOTRACHEAL INTUBATION: Ability to safely and effectively perform endotracheal intubation.	YES	NO	NBE
PATIENT ASSESSMENT AND MANAGEMENT: Performing an assessment, developing a differential diagnosis, formulating, and implementing a treatment plan demonstrating the knowledge base and professional judgment required of an EMT-Intermediate	YES	NO	NBE
WRITTEN RECORDKEEPING: Documenting patient information, observations, and occurrences accurately, completely, concisely, and legibly	YES	NO	NBE
VERBAL COMMUNICATIONS: Communicating pertinent information understandably, completely, concisely, and accurately	YES	NO	NBE
ECG ACQUISITION AND INTERPRETATION: Demonstrating ability to safely and effectively acquire and interpret both a monitoring lead and 12-lead ECG.	YES	NO	NBE
CALL MANAGEMENT--Demonstrating ability to serve as team leader and safely and effectively direct the prehospital response to a variety of calls. (Note: While most third semester students will not yet be ready to assume the role of team leader, some will have progressed to this point near the end of the semester and should be given the opportunity to begin assuming the team leader role.)	YES	NO	NBE

PRECEPTOR COMMENTS: (All "NOs" require comment including suggestions for improvement)

STUDENT COMMENTS: (All "NOs" require comment including student's planned actions for improvement)

Preceptor's Signature: _____ Date: _____

Preceptor's Printed Name: _____

Performance Record

Interventions		Conditions	Gender/Age
Vital Signs	CPR	Chest Pain	Male
Assessments	Oxygen	Breathing Difficulty (Adult)	Female
Breath Sounds	Spinal Board/KED	Breathing Difficulty (Pediatric)	< 1 year
Oral Airway	BVM	Vehicular Trauma	1-2
Nasal Airway	Bandage & Splint	Non-Vehicular Trauma	3-4
Oral Suction	Traction Splint	Non-trauma AMS/neuro deficit	5-9
Nebulizer	PASG	Acute Abdomen	10-19
Oral Meds	SAED	Hypoglycemia	20-29
Epi Autoinjector	IV Therapy	Hyperglycemia	30-39
Blood glucose	IV Push Drugs	Toxicologic/Poisoning	40-49
Oral Intubation	IV Piggyback	Behavioral	50-59
Nasal Intubation	IM Drugs	Vaginal Delivery	60-69
NG Tube	SC Drugs	Cardiac Arrest	70-79
Surgical Airway	Chest Decompress		80-89
12 Lead ECG	Defib/Cardiovert		90-99
Monitoring Lead	External Pacing		> 100

Student Evaluation of Clinical Site

Did the staff make you feel welcome and include you in daily activities and patient care?	YES	NO
Did this site provide you with adequate patient contacts and other experiences to help you complete to objective for the rotation?	YES	NO

Student Evaluation of Preceptor

Did your preceptor make you feel welcome and include you in patient care activities and non-clinical activities?	YES	NO
Did the preceptor assist your learning by building on your knowledge and relating it to patient care?	YES	NO

COMMENTS: (All "NOs" require comment including suggestions for improvement)

The information in this document and all documents submitted with it is an accurate record of my activities during this clinical assignment:
