[MEDLINE](#) [STATISRef](#)

Below are various ways to search for articles or article citations using CINAHL.

1. Search Journals That Are Available Through Temple College Library:

Look in the Limit your Results section and click on the box to the right of "Temple College Nursing Journals".

Limit your results:

Temple College Nursing Journals

Scroll back to the top of page and type in the first empty search box: **hypertension**, change the Default Fields to TI_Title

In the box below hypertension, type **treatment**

Click search.

200+ articles

Note for each article the Note should read that This title is held locally.

Also notice there are some that have full text available through database.

If you want to find an article that is on the shelf, choose a citation, then print it, or write down the citation info, then go to the nursing journals section and find article.

Add to folder choose three and click on the “add to folder” icon. Then scroll to top and click on “Folder has Items” Good way to hold several articles that you might wish to look at later. Also good way to print off a few citations to just the articles you want.

2. Search by Selecting a Few Journals:

Click on Publications

type in a title in the browse for box (type in AORN) –click on browse

Browse Publications:

a list will display, click on the box to left of title **AORN Journal** and then click on **ADD**

Mark Items for Search

<input type="checkbox"/>	AORN Connections <i>Bibliographic Records: 2003 to present</i> Notes: This title is not held locally
<input checked="" type="checkbox"/>	AORN Journal <i>Bibliographic Records: 1981 to present</i> Notes: This title is held locally

In the browse publications box, highlight and delete AORN so you can type a new title.

You may add as many other titles as desired through same procedure (click in the Browse for box) let’s select 2 more:

Type in “Journal of practical nursing” then select that title and the one below it---

Journal of Professional nursing

Then click on gray SEARCH button. Over 7000 articles in the database from these 3 titles.

Database: CINAHL -- Publications ?

Find: ((JN "AORN Journal")) or ((JN "Journal of Practical Nursing") OR (JN "Journal of Professional Nursing")) Search

In the empty search box below where the journal titles are click in the box and type in "children" search. 70 articles.

Notice that there are no links to full text. Notice that the note line reads that " This title is held locally" so you should be able to find the journal either in the current periodical shelf area or the periodicals room, then read and make a copy of the article.

[New Search](#)

3. Search Example For Full-Text Articles Using CINAHL

Type **Latex** in first search box in box to the right, change to TI_Title

Type **Allergy** in box below Latex, change default field box to TI_Title

Find: latex in TI Title
and allergy in TI Title
and in Default Fields
in CINAHL Suggest Subject Terms

Refine Search Search History / Alerts Results

Limit your results:

Temple College Nursing Journals	<input type="checkbox"/>
Temple College Dental Journals	<input type="checkbox"/>
Taylor Campus Nursing Journals	<input type="checkbox"/>
Linked Full Text	<input checked="" type="checkbox"/>

Click on the box to the right of linked full text. (If not enough FT articles display, try same search without FT selected.)

In year of publication type in 2001 in first box, 2006 in second. SEARCH
