MICROSOFT OFFICE 2016

**Word (POFI 1024)** is an essential skill for success in today's business world whether you’re beginning your career in a support position or you’re an executive. Through this hands-on workshop, you will learn how to:

- Create, format and edit basic business files
- Edit documents using spell check, dictionary and thesaurus
- Save files and print documents

**Excel** continues to be one of the most in-demand skills of employers. Set yourself up for greater career success by building your skills through our series of three, hands-on workshops:

- Gain a solid foundation in our 12-hour Intro workshop, where you’ll learn the basics of creating formulas, charts and graphs ([Introduction- ITSW 1022](#))
- Move then to the eight-hour Intermediate class to gain skills in areas such as data analysis tools and AutoFilter commands ([Intermediate- ITSW 1046](#))
- Advance onwards to our eight-hour advanced class to learn to add functional and eye-catching custom controls, advanced techniques for PivotTables, and the art of conditional formatting ([Advanced- ITSW 1049](#))

**PowerPoint (ITSW 1037)** Learn to power up your presentations. Through this hands-on workshop, you will learn how to:

- Create and run a slide presentation
- Edit and enhance objects
- Insert and manipulate images within your presentation
- Create and print out audience handouts and presentation notes

**Access (ITSC 1053)** Take control of your data! Through this hands-on workshop, you will learn how to:

- Organize, store, edit, and manage data
- Build and customize tables to store data
- Build forms, generate reports, and search for data with queries
