Ms. Talley reported that San Jacinto College Staff had “nothing but great things to say about
everyone and everything that we are doing at Temple College.”

Student Success

As part of the Achieving the Dream Annual Reflection, Temple College reported data related to the five success measures. The following refers to Measure 5: Completion of certificates or degrees. The data were disaggregated by ethnicity and gender.

Temple College continues to increase the number of degrees and certificates awarded each year (figure 1 below). The number of awards has increased by 93% since FY2000 while enrollment has increased 65% over the same period. For the largest ethnic groups, no significant gaps appear when compared to participation rates. There is no more than a two percentage point gap between the FY 2012 percentage rate for awards-by-ethnicity and the five-year average rate of participation for each group (table 1).

There does remain a gap in the percentage of awards by gender (figure 2). Female students accounted for an average of 73% of the awards given in a five-year period and a 66% average participation rate. Males also have a lower persistence rate.

No report for June

Dual Credit
Ms. Kathryn Norris, Dual Credit (DC) Director, reports that final grades for the spring semester have been finalized. Work is being done to make sure all dual credit students taking summer classes are off to a good start. Dual credit staff are meeting with students/parents/counselors to finalize all preparatory work for fall registration scheduled to begin in July.

Cameron Center
Dr. John Bicknell and staff have completed school visits with parents and prospective students. All student/parent meetings had good turnout. CEC ACCUPLACER testing has been scheduled on Tuesday, June 18 by Melissa Schneider. After testing is completed, CEC staff should have a better understanding of how many students we will have for the fall semester. During the month of June, Dr. Bicknell has scheduled to receive all the data needed from the area ISDs and be able to start entering schedules in July.

EWCHEC-Taylor
The TCAT Foundation Building Subcommittee met with Temple College staff to discuss plans for renovations to classrooms and office space at EWCHEC Taylor. Ms. Charlotte Herron, Office Manager, EWCHEC Taylor presented a calendar with summer classroom utilization so that timing of renovations could be done around learner activities. Dr. Van Miller, Dr. Dan Spencer, Ms. Charlotte Herron and Mr. Steven Kovar walked the building room-by-room to detail repairs needed. The TCAT Foundation will contract to have specs and bid documents produced.

Dr. Mark Smith and Dr. Daniel Spencer attended the Legacy Graduation on May 30 at 10 a.m. in the Hutto Performing Arts Complex. Several EWCHEC Taylor Temple College faculty who teach Legacy students also attended and supported the graduation ceremony.

EWCHEC-Hutto Center
Dr. Barron invited Instructional Division Directors, Department Chairs, and several Directors from support areas, directly linked to EWCHEC Hutto, for a tour of the new facility on May 30. Mayor Debbie Holland and Mr. Joey Grisham, President/CEO of Hutto EDC were with the group to share how important bringing a Temple College, TSTC and EWCHEC presence to the Hutto community is for their community’s future. Dr. Robbin Ray served as tour guide for personnel around the new facility. The tour information and discussions, about what it will take to bring EWCHEC Hutto online fall 2013, gave all who attended a direct perspective about course scheduling and activities that need to occur over the coming months.

Dr. Robbin Ray and staff are holding interviews for support positions for EWCHEC Hutto over the next few weeks in June. Once hired, employee training will be coordinated with main campus departments to occur over the summer.
The EWCHEC Hutto Center is still on track to be completed on schedule with plans for both Temple College and TSTC to take possession by mid-July.

Texas Creates an On-line Comparison Tool about Colleges

Texas has been recognized nationally for having one of the most dynamic, comprehensive higher education accountability systems in the nation. The Texas Higher Education Coordinating Board (THECB) provides higher education data in a variety of formats to promote state policy discussions and decisions which are data-driven. The online accountability system was first launched in 2004 to support the work of institutional researchers and higher education policy analysts. In 2011, the THECB released the first edition of the Texas Public Higher Education Almanac designed to disseminate relevant institutional accountability data to public officials and higher education leaders throughout Texas.

The Texas Higher Education Coordinating Board (THECB) has launched Compare College TX (CompareCollegeTX.com) an online, interactive tool designed to make the most relevant data about public higher education in Texas available to everyone. The online comparison tool allows users to access and interact with information for every public university and community college across the state.
