*Federal reporting of race/ethnicity categories changed effective fall 2010. The new reporting categories will make longitudinal comparisons problematic. Hispanics are identified by an ethnicity question that is separate from the racial question. Hispanic students, except international ones, are identified by the ethnicity question. In addition to the "African American" non-Hispanic category, there is a listing for "Multi-Racial one of which is African American." "Asian" includes Asian, Hawaiian, and Pacific Islanders. "Other" includes American Indian, Alaskan Native, Unknown, and two or more races, excluding African American. International students are shown separately and excluded from the race/ethnicity breakouts.

Quality Enhancement Plan

28. Quality Enhancement Plan
<p>The Quality Enhancement Plan (QEP) at Temple College reflects the mission of the College, which is to educate a diverse population of students. The goal of the QEP is to enable students to successfully transition through foundation mathematics courses in order to complete core mathematics courses. Literature review and statistical data support an interest and need for this QEP topic. Research suggests that of all foundation courses, mathematics presents the most pronounced obstacle for students. In addition, students who complete foundation mathematics courses still have difficulty completing core-curriculum mathematics courses. The statistical data for Temple College show the enrollment numbers for foundation mathematics courses are higher than other foundation courses; however, the success and retention rates are lower for foundation mathematics courses than other foundation courses. http://www.templejc.edu/SACS2010/QEP.htm</p>

Highlighted Excellent Programs 2

<p>Texas Bioscience Institute, Temple College is a recognized exemplar by the Texas High School Project. The Texas Bioscience Institute is a Middle College program in which students receive college credit while still in high school. Supported by a unique network of partnerships, TBI brings together different school districts, two private schools, home school students, numerous universities, the Temple Bioscience community, the Cancer Research Center, Scott & White Hospital, Texas A&M Medical School, Veterans Health Care Cardiovascular Center, and numerous other programs. The mission of TBI is to develop young scientists, with a focus in biotechnology/medical areas. Rigorous college level courses, participation in seminars focusing on research projects and observing in scientific laboratories engaged in cutting-edge research, and opportunities to engage in reflective discussions are all part of this academic focus and the TBI experience. http://thsp.org/cms/Onebc89.html?pagelid=533008</p>
