The data for this accountability measure is tracked for one year for students who met TSI and for one, two, and three years for students who did not meet TSI for this report.
*The Unknown (unduplicated) category does not include students who are unknown in some areas and not met in others.
**Unknowns by area include students with waivers or exemptions who have not been reported as meeting TSI on a performance measure; FTIC students with waivers or military exemptions who were reported as meeting TSI in all areas based on performance measures are included in the "met state standards in all areas" category.

## Quality Enhancement Plan

## 28. Quality Enhancement Plan, Including Reaffirmation Year

The Quality Enhancement Plan (QEP) at Temple College reflects the mission of the College, which is to educate a diverse population of students. The goal of the QEP is to enable students to successfully transition through foundation mathematics courses in order to complete core mathematics courses. Literature review and statistical data support an interest and need for this QEP topic. Research suggests that of all foundation courses, mathematics presents the most pronounced obstacle for students. In addition, students who complete foundation mathematics courses still have difficulty completing core-curriculum mathematics courses. The statistical data for Temple College show the enrollment numbers for foundation mathematics courses are higher than other foundation courses; however, the success and retention rates are lower for foundation mathematics courses than other foundation courses.

## Excellent Programs

## 29. Excellent Programs

## Highlighted Excellent Programs 1

Temple College Dental Hygiene Program had 100\% licensure passing rates since its inception 13 years ago.
http://www.templejc.edu/dept/Dental/News.htm

## Highlighted Excellent Programs 2

Texas Bioscience Institute, Temple College is a recognized exemplar by the Texxas High School Project. The Texas Bioscience Institute is a Middle College program in which students receive college credit while still in high school. Supported by a unique network of partnerships, TBI brings togetherten different school districts, two private schools, home school students, numerous universities, the Temple Bioscience community, the Cancer Research Center, Scott \& White Hospital, Texas A\&M Medical School, Veterans Health Care Cardiovascular Center, and numerous other programs. The mission of TBI is to develop young scientists, with a focus in biotechnology/medical areas. Rigorous college level courses, participation in seminars focusing on research projects and observing in scientific laboratories engaged in cutting-edge research, and opportunities to engage in reflective discussions are all part of this academic focus and the TBI experience. http://thsp.org/cms/Onebc89.html?pageld=533008
