

ADVERTISING AND PROMOTION

Temple College may provide advertising space to promote other educational institutions and activities in which Temple College is a joint sponsor and/or are officially approved by the president.

Student Groups

The Director of Student Life should approve materials for student groups. If a student group requests a free speech bulletin board space, the Director of Student Life and Vice President, Educational Services will determine the appropriate location in the Arnold Student Union and guidelines for posting such materials.

External Agencies

Temple College recognizes that there are many very worthwhile civic, church, and charitable agencies within our service area. While the Institution is supportive of the activities in which these groups engage, it is not possible to provide a bulletin board or other display space for posters/promotional displays.

Posting

Materials for posting must be approved by the Director of Student Life. College materials to be posted, may be posted without approval by Student Life. Any Temple College employee may remove out-of-date materials from the bulletin boards. When unapproved materials are discovered, please contact the Student Life Office or the Marketing and Media Relations Department.
